

AFB™ 6280B

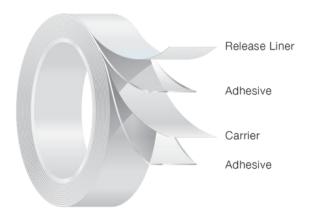

Avery Dennison AFB[™] 6280B is a black acrylic foam tape with double coated modified acrylic adhesive on both sides. This conformable foam adhesive bonds well to a broad range of medium to low surface energy paints and plastics, including many powder coated paints. Excellent shear strength and resistance to UV and elevated temperatures. Suitable for office furniture and telecommunication mounting, decoration and TV frame mounting.

FEATURES:

- · Foam tape with viscoelastic acrylic foam carrier
- Closed cell structure
- Acrylic adhesive system
- Easy release polyethylene liner

BENEFITS:

- High adhesion combined with good shear absorbs shock and distributes stress evenly
- · Good moisture, UV and high temperature resistance
- Uniform bonding performance
- Can help eliminate the need for mechanical fasteners, drilling or grinding and related clean-up for certain applications
- Polyethylene liner helps provide good moisture stability and easier converting with its high tear strength

CONSTRUCTION:

Liner:
Red Polyethylene Liner With Imprinted Avery Logo
Adhesive:
Black Acrylic
Carrier:
Gray Acrylic Foam Core
Adhesive:
Black Acrylic

THE LISTED VALUES ARE TYPICAL AND NOT INTENDED TO SERVE AS PRODUCT SPECIFICATIONS

APPLICATION TECHNIQUES

• It is essential, as with all pressure-sensitive tapes, that the surface to which the tape is applied be clean, dry, and free of grease or oil

Bond strength is dependent upon the amount of adhesive-to-surface contact developed

• Note that different pressure, time and temperature on different (film / rigid) surface achieves different performance

STORAGE / SHELF LIFE

• One year when stored at 64-72°F (18-22°C) / 30-70% relative humidity, out of direct sunlight and in original packaging.

Please refer to Tapes. AveryDennison.com for complete terms and conditions, including warranty terms, relating to this product. You should periodically review the site as terms and conditions are subject to change without notice.
