FT 1126 12 Pt Board

Avery Dennison FT 1126 12 Pt Board is a 5.5 mil transfer tape with a modified acrylic adhesive and a heavy board release liner. It bonds well to low surface energy materials and has good foam bonding properties. FT 1126 12 Pt Board is commonly used for foam and fabric applications in the automotive and appliance industries.

FEATURES:

- · Unsupported adhesive
- Modified acrylic adhesive for low surface energy substrates
- 12 point poly coated kraft board release liner

BENEFITS:

- Highly conformable to curved or irregular surfaces
- Strong bond to low surface energy materials and good foam bonding performance
- Good heat resistance
- · Heavyweight and stiffness allow for easy handling

CONSTRUCTION:

Liner:

Natural 12 Pt Board

Adhesive:

Acrylic

APPLICATION TECHNIQUES

- It is essential, as with all pressure-sensitive tapes, that the surface to which the tape is applied be clean, dry, and free of grease or oil
- Bond strength is dependent upon the amount of adhesive-to-surface contact developed
- Note that different pressure, time and temperature on different (film / rigid) surface achieves different performance

• One year when stored at 64-72°F (18-22°C) / 30-70% relative humidity, out of direct sunlight and in original packaging.
