

Avery Dennison Performance Tapes
**Pressure-sensitive
Adhesives for Tile
Pads for Modular
Flooring**

Application

Self-adhesive high tack tile pads for a user friendly and glue free installation of modular flooring substrates.

Tile tabs are used to install modular floor system as a free floating system without connecting the modular floor to the subfloor, whilst creating a connection between the floor tiles.

Flooring Applications

1. Tear

Tear off the tile pad from roll

2. Place

Place tile pad below the modular floor substrate

3. Compile

Compile and press down modular floor substrates

Product Features & Benefits

Features	Benefits
Engineered Acrylic Adhesive	High initial bond to variety of floor substrates and backing materials; Engineered performance adhesive with excellent resistance to plasticizers, chemicals, moisture and temperature; Strong connection to floor substrate over time
Self-wound Liner Free System	No need to remove protective liner; Reducing non-required scrap; User friendly tear-off method
Strong Clear Polyester Facestock	Transparent facestock; Excellent strength and dimensional stability

Product Proposal

Avery Dennison FT 4361 is a self-wound tape with a rigid PET facestock and a high engineered performance adhesive designed for high performance and user friendly tile pad applications. Suitable for a variety of secondary backings (PVC, rubber, vinyl, bitumen, felt, non-woven, ...) with an excellent aging performance.
