

FT 8716I

FEATURES:

- Uniform adhesive thickness
- Specially designed adhesive
- Low density nonwoven

BENEFITS:

- Consistent application performance
- High initial tack for quick bonding
- Good adhesion on various substrates (including LSE like PP, PE, etc.)
- Excellent resistance to solvent, chemicals, plasticizer, temperature & moisture

CONSTRUCTION:

Adhesive:

Modified Acrylic Adhesive

Carrier:

White Nonwoven

Liner:

White PPP (polyethylene protected paper), with red 'Avery Dennison' logo imprinted
