

## TECHNICAL DATA SHEET

**Avery Dennison™ FT 21902** is a 2mil transfer tape with an advanced acrylic adhesive and a polyethylene protected paper liner. It offers low VOC and fogging performance and broad temperature compatibility. It is resistant to solvents, chemicals, plasticizers, and UV and it ensures reliable adhesion. It shows good adhesion on metal and medium or high surface energy substrates and is used for assembly applications requiring high temp resistance and low VOC.

### FEATURES

- Advanced pure acrylic adhesive
- APEO free adhesive
- Low VOC and Fogging performance
- Easy release glassine liner
- Broad range of service temperatures

### BENEFITS

- Excellent resistance to solvents, chemicals, plasticizers, temperature and UV light
- Good resistance to moisture
- Good conformability to flat or curved surfaces
- Immediate initial adhesion for part placement
- Excellent die cutting characteristics and lay flat properties

### CONSTRUCTION

**Liner:** Polyethylene protected paper natural liner

**Adhesive:** Pure acrylic

## APPLICATION TECHNIQUES

- It is essential with all pressure-sensitive tapes the application surface is clean, dry and free of grease and oil
- Bond strength is dependent upon the amount of adhesive-to-surface contact developed
- Note that different pressure, time and temperature on different (firm / rigid) surface achieves different performance

## STORAGE / SHELF LIFE

Two years when stored at 64-72 °F (18-22 °C) / 30-70 % relative humidity, out of direct sunlight and in original packaging.
